

# HOSPITAL PATIENT SAFETY INITIATIVE (PSI)

## DRAFT RISK EVALUATION TOOL

### Discharge Planning

Name of State Agency: \_\_\_\_\_

Instructions: The following is a list of items that must be assessed during the on-site survey, in order to determine compliance with the Discharge Planning Condition of Participation. Items are to be assessed by a combination of observation, review of the hospital's discharge planning program documentation, including policies and procedures, interviews, and review of medical records.

The interviews should be performed with the most appropriate hospital staff person(s) for the items of interest, as well as with patients, family members, and support persons.

## Section 4 Discharge Planning Tracers

In this section, survey 1-2 current inpatients and review the closed medical records of 2-3 patients who were discharged to home or transferred to a post-acute care setting. When possible, include one inpatient who was readmitted within 30 days of a previous admission. For closed records, be sure to select a record that includes a discharge planning evaluation and a discharge plan, and do not choose N/A instead of a Yes or No response. Note key at bottom of page for Manner of Assessment code.
